PROJECTS

My Own Portfolio   1/2024 - 1/2024
Erode

I've Planned To Create My Own Resume As A Website...
I Have Believed That It Will Definitely Helps To Understand About My Skills Practically Better Than Documents...

In that Webpage I've created,

- My Own ChatBot
- Bio Data
- Skills
- Certificates
- Gallery
- My YouTube Channel
- A Simple Game
- Contact Form

Skills Used To Create That Website,

- HTML
- CSS
- JAVASCRIPT

And in that website...I've done some animated dynamic baground using particles.js
And I have used maths.js library for allowing my chatbot to do maths operations..

It's Also Just Words..
Nothing Can Explain As The Reality Shows...
So,Go and See the Website And Understand About Me Practically
